Product Size & Specifications

Efficient, heavy-duty vacuum cleaner with strong suction and low maintenance.

Power	5 HP
Suction	4500 mm WC
Air Flow	250 M/hr
Container Capacity	100 Ltrs
Dimensions	600x600x1600 mm

Dual-Action Suction for Dust & Water

Tackle dry debris and liquid spills effortlessly—no fuel, no charging, just powerful and economical cleaning.

Dust

Water

2200W Pure copper wire

Double channel cooling suction more durable

22M New upgrade Industrial cleaning diameter

First choose of cleaning large area, save the time and effort

Engineered for Excellence

Featuring high-strength tubing, durable hoses, and pure copper wiring for superior reliability.

Ab connect tube

No deformation

High quality hose

Tough and durable

Thickened wire

Pure copper wire core

Max Coverage. Maximum Power.

22M upgraded industrial vacuum with 100L capacity – the ideal solution for large-scale cleaning with less effort and more efficiency.

Efficient Dust Disposal, Seamless Cleaning

Equipped with EVA torsion hose and optimized outlet for fast, clog-free discharge during heavy-duty operations.

22M New upgrade Industrial cleaning diameter

First choose of cleaning large area ,save the time and effort

Triple Filtration. Cleaner Air. Better Results.

From large dust particles to micro fine dust – advanced filters ensure maximum cleaning efficiency.

Detachable Dust Barrel for Hassle-Free Cleaning

Pull-out design makes dust disposal quick, clean, and convenient.

Detachable barrel easy to clean the waste

Barrel body can be drawn, more convenient to dump dust

Heavy-Duty Body Built to Withstand Anything

Corrosion-resistant, impact-proof, and heat-tolerant – designed for tough industrial conditions.

Strong machine body corrosion and pressure

The machine body is impact resistant, corrosion resistant and rust free

Preservative

Impact Resistant

High Temperature
Resistance

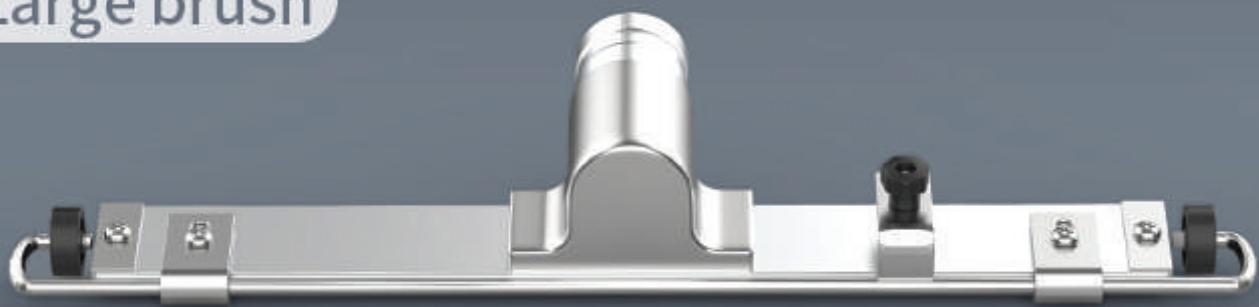

All-in-One Accessory Kit for Every Cleaning Task

From fine dust to large debris – choose the right tool for every surface and environment.

Accessories family photo

Meet different vacuum environment

Large brush

Vacuum brush

Vacuum skin brush

Big flat suction nozzle

Large round brush

Telescopic tube

Hose

Smart Design in Every Detail

360° wheels for mobility, tight-seal buckle for dust control, and cooling vents for long-lasting performance.

Details show

Universal regulating wheel
can be easily implemented and moved freely

Metal buckle
strong seal, no leakage of dust

Cooling port
fast cooling, longer service life
